DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 1-17.

This application is in condition for allowance except for the presence of claims 1-17 to an invention non-elected without traverse. Accordingly, claims 1-17 have been cancelled.

Allowable Subject Matter

Claims 18-31 and 34-48 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 18-31 and 34-35, there is no teaching or suggestion in the art of record disclosing a component for use in forming a printed wiring board with all of the limitations of claim 18 in combination. More particularly, wherein a vapor-deposited layer of copper is formed on the separation facilitating layer for protecting the separation facilitating layer and then a thicker layer of copper is electrodeposited on the vapor-deposited layer of copper. Therefore, independent claim 18 is deemed allowable along with its dependent claims 19-31 and 34-38.

Regarding claims 36-42, there is no teaching or suggestion in the art of record disclosing a component for use in forming a printed wiring board with all of the limitations of claim 36 in combination. More particularly, wherein a vapor-deposited layer of copper is formed on the separation facilitating layer for protecting the separation facilitating layer and then a thicker layer of copper is electrodeposited on the vapor-deposited layer of copper. Therefore, independent claim 36 is deemed allowable along with its dependent claims 37-42.

Regarding claims 43-48, there is no teaching or suggestion in the art of record disclosing a component for use in forming a printed wiring board with all of the limitations of claim 43 in combination. More particularly, wherein a vapor-deposited layer of copper is formed on the separation facilitating layer for protecting the separation facilitating layer and then a thicker layer of copper is electrodeposited on the vapor-deposited layer of copper. Therefore, independent claim 43 is deemed allowable along with its dependent claims 44-48.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas M Menz whose telephone number is 571-272-1877. The examiner can normally be reached on M-F 8-5.
